**Transfer of Files for Preliminary Assessment Work Assignment in Region VIII, Close-out files**

Dear Mr. Heise:

Please find attached the working files for the Preliminary Assessment Work Assignment in Region VIII (PA). A copy of the file inventory is enclosed for your convenience. The index is standardized for similar work assignments and, therefore, there may not be documents in each category for each site. This completes the close-out task for this work assignment.

Due to ongoing Site Inspection (SI) activities, some of the files contain only the final PA reports. Files for Yankton Lighting and Heating Company #1, and the Old Deadwood Town Gas Site will be closed out upon the closeout of the corresponding SI. Files for the Watertown Heating, Power, and Light Company were closed out with the SI files in June 1995.

If you have any questions concerning this close-out, please feel free to contact me at 296-9700.

Very truly yours,

**URS CONSULTANTS, INC.**
